

To Whom It May Concern:

I am writing this letter to recommend the services of CAIN Health. Over the past decade, CAIN Health and their team have provided excellence and consistency through their various services, especially those related to the revenue cycle.

CAIN Health's team is extremely well qualified and experienced. They've helped us greatly in the past, particularly in the area of care management and eligibility. We were very reliant on their expertise in navigating through regulations, particularly in the New York area. CAIN Health has been integral in helping us through the twists and turns in order to avoid the pitfalls and spot opportunities.

The integrity and experience base of CAIN Health are two very strong factors in our decision to partner with over the years. In the revenue cycle world, CAIN Health has the broad base of expertise required to effectively manage the often complicated system and regulations. On a personal basis, I can tell you that CEO Wm. Scott Cain operates with an extreme of level of integrity and values. His dedication and knowledge allows us to trust the work we do with CAIN Health.
