

Dear Colleague:

Since 2008, CAIN Health has provided efficient and formable services to our brand. CAIN Health has been a great partner and helped us save money and manage everything from denial accounts to physician advisory.

The team at CAIN Health never compromise and are a true asset. Our physician staff has always enjoyed working with them, which has led to smoother transactions and a strong work flow. CAIN Health is easy to work with and consistently available for special projects and consultation. Over the years, they have recovered sustainable revenue for us. In many cases, they have established better relationships with our physicians than any other vendor.

Wm. Scott Cain has always been a pleasure to work with. CAIN Health has always had the best contracts and made our work easier. With CAIN Health, we have never had to compromise our brand or our vision. Through coding, documentation, and revenue cycle, CAIN Health has helped guide our staff and physicians to perform more effectively and produce better results.
